

Epoxy Primers

Epoxy Primers

Epoxy primer are the best adhesion and rust protection primers available. If you apply a coat prior to stating your body work you can feel safe that you have protected it an provided the best base for your paint job.

PPG DP-LF Epoxies

These are the best primers available for adhesion and corosion protection. They are available in gray, red, blue and green. They also can be used as a sealer so that you do not need to buy a seperate sealer. Check with the correct P-bulliton for proper application as a sealer.

OMNI Epoxies

These are PPG's value based epoxies. They are a good product, but sometimes require an additional coat to achieve full protection and coverage. However, they are a cheaper price.

House of Kolor Epoxy

This epoxy is a combination of an epoxy primer and a primer surfacer. This is a great product for protection and will fill body work imperfections with great sandability.
